## Software Development Projects

2021 - PRESENT

### Tajj Mu'Hall – Group Project

- Worked as part of a team to create an event locator, planner and social app that utilizes a third party API .
- Constructed the User Authentication as well as created the presentation video.
- Maintained 18+ Github branches along with smooth mergers to support branches.
- Assisted teammates with troubleshooting and debugging for both front and backend.
- Maintained Trello operations for keeping the team informed and inspired throughout the project timeline.

### Pure-DJ Music App

- Created a DJ Record Pool app with a huge library of promotional music that DJs can access anywhere.
- Obtained real-time music information through integration of a third party local music API
- Designed functional front and backend coordination using REACT, EXPRESS, and NODE JS.
- Implemented user auth verification using JWT token authentication.

### Musi'Guess – Guess.A.Word Game

- Created a modernized version of the guess-a-word game using HTML, CSS and vanilla Javascript.
- Focused on front-end styling using CSS.
- Added visual features to enhance gameplay.

## Work Experience

### MVP Services - Owned/CEO

2014 - 2019

- Maintained daily operations in a high-volume deadline oriented environment.
- Past business ownership, office management, marketing, management of office finances, maintained technical and IT duties (network support, diagnostics, software installs, etc) .
- Previous liaison to receive and deliver pertinent documents, including passports and visas, to corresponding consulates and embassies on behalf of corporate and individual clientele.
- Assisted the general public and corporate clientele with visa related inquiries and passport services via internet, telephone and in-person meetings.
- Provided information pertaining to specific countries and general U.S. passport requirements.

### Digital Lighting Technician

2002 - 2011

- Programmed and maintained continuous visual effects and transitions via Light Jockey Software interface system during live events and performances for clubs and theaters throughout the Washington DC Metropolitan area.

### Freelance Graphic Designer

1992 - 2020

- Completed custom design work, layout and production of original logos and branding.
- Coordinated production of all items, created designs and lettering for flyers, posters and accessories using Adobe Illustrator, Photoshop, Dreamweaver and Fireworks .
- Facilitated In-store design and printing of custom balloon orders and on location balloon decorating.

## Education

### General Assembly – Software Engineer Immersive Certificate

Oct 2021 -Feb 2022
